DESERTERS MENACE TO PARIS

TEN DIVISIONS FOR ARMY OF OCCUPATION

(By Associated Press)
Washington, Jan. 27.—General March, Chief of Staff, informed the Senate Military Committee today that shipping arrangements had been made by which 300,000 men might be transported home monthly and that all of the American expeditionary forces could be returned home and demobilized within 6 months. There are still about 755,000 men in camp in the United States and all will be demobilized within a month from today except those retained for "overhead" duty. Gen. March added, up to noon last Saturday he said 10,000 men had arrived from overseas. How many Americans will be held abroad in the army of occupation is to be determined by President Wilson. Gen. March stated, but more Americans are

RELEASE 113 CONSCIENTIOUS OBJECTORS

(By Associated Press)
Leavenworth, Kan., Jan. 27.—The release of 113 conscientious objectors honorably discharged from the service by the War Department orders was begun at the Disciplinary Barracks, at Fort Leavenworth, this morning. Two, however, refused to leave saying it was against their religious scruples. They have been designated for return home than originally proposed by Marshal Poch. He indicated that 10 divisions had been suggested as America's contribution to the army of occupation. If honest values could talk the Portsmouth Furniture Co. would be the hottest place in the country.

Murders, Assaults and Fighting Are Cause For Doubling Military Police Protection in Paris--Soldier Police Arrest Many American Deserters

ALLIED TROOPS AGAIN RETREAT

(By Associated Press)
London, Jan. 27.—Allied forces on the front south of Archangel, mainly American and Russian troops, have evacuated the town of Shoukoursk under Bolshevik pressure and withdrawn to a shorter line north of the town, according to an official statement from the British War Office today on operations in northern Russia.

Paris, Jan. 27.—Twenty four murders, 220 day and night assaults and nearly 500 serious fights due to American soldiers occurred in the Department of the Seine during December, says the Matin today, in reverting to the subject of the reorganization of the American police in Paris. The re

inforcement of the police contingent has been demanded by Brigadier General William W. Hart. The news paper asserts that with his new organization effected police operations have been carried out on a wholesale scale, especially in the Montmartre section resulting in the arrest of many American deserters.

PRESIDENT SEES RUINS IN FRANCE

(By Associated Press)
Paris, Sunday, Jan. 26.—President Wilson today made his first trip to the battle front and devastated regions, including Chateau Thierry and Rheims. At the close of a trip that took him through a dozen razed villages ending with the ruins of the historic cathedral at Rheims he made this comment, "No one can put into words the impressions I have received among such scenes of desolation and ruin." That was his only expression of his feelings after a trip that every Frenchman had been hoping he would make before he took part in deciding what should be exacted from Germany for the devastation of northern France. Accompanied by Mrs. Wilson, Admiral Grayson and a few others, the President left the Muret residence early this morning, foregoing attendance at church and the post which he felt he needed, to perform what he said he considered a duty. A motor trip was made to Chateau Thierry where lunch was taken. The party then proceeded by motor to Rheims, passing through many ruined villages and along the old fighting front where evidences of combat are still plainly to be seen. After visiting Rheims the party abandoned motor cars and returned to Paris by special train. The last part of the motor trip was made in a swirling snow storm.

Brussels, Sunday.—President Wilson intends to accept the invitation of King Albert and visit Brussels. It is said in well informed circles but has not fixed the date for his trip because of the press of business at Paris.

SAY GERMANS DON'T REALIZE THEIR DEFEAT

(By Associated Press)
Paris, Jan. 27.—A French general who has just arrived from Berlin is quoted by the Matin as follows: "The German people believing that the war is over think that their bad times are at an end. They believe that the German army was not beaten and that therefore no war indemnity will be exacted. They labor under illusions regarding the feelings of the American people, especially President Wilson. I have seen processions passing the Adlon Hotel cheering the General in command of the American mission in Berlin."

AGREE ON BILL TO FEED EUROPE

(By Associated Press)
Washington, Jan. 27.—An agreement on the administration bill appropriating \$100,000,000 for European famine relief was reached today by the Senate and House conferees after a brief session. No material changes were made in the bill by the conferees. All of the Senate amendments with minor changes in phraseology were adopted including that by Senator Penrose, of Pennsylvania, Republican, providing that wheat donated should be bought as far as practicable in America. Prohibition added by the Senate against distribution of food to enemy people also was approved by the conferees. But the provision was redrafted so as to insure the Armenians and other friendly peoples in enemy territory might become the subjects of relief.

SHOE WORKERS UNIONS FIGHT EACH OTHER

(By Associated Press)
Haverhill, Mass., Jan. 27.—The conflict between the Foot and Shoe Workers Union and the Shoe Workers Protective Union, rival organizations for control of the shoe operatives of this city, was reflected today in a marching demonstration and picket cordons at the plant of the Austin H. Perry Co. The occasion was the inauguration of an agreement between the Perry Co. and the Foot and Shoe Workers Union by which the latter's wage list and working conditions were accepted. The effect of the new agreement according to the leaders of the Shoe Workers Protective Union was to exclude 400 of its members from employment.

KAISER BILL DISCOURAGED

London, Jan. 27.—William Hohenzollern has grown very angry and rarely speaks a word to his men servants and guards, according to the Mail correspondent at Amerongen. His last recorded remark was made a few days ago when he said that his "Uncle at Amerongen was nearly up." His wife, on the other hand, maintains a cheerful disposition. The correspondence says "The former Emperor is being gradually deserted by everyone. He receives practically no visitors."

ADM. CHADWICK RETIRED, DIES IN NEWPORT

LAST OF THE CASUALTY LIST RECEIVED

Now 105,753 Americans in Hospitals in France and England--33,111 for Wounds Received Before the Armistice Was Signed

(By Associated Press)
Washington, Jan. 26—An official report from General Pershing to the War Department, made public today, states that on Jan. 9, there were 105,753 of the American army in hospitals in France and England. Of these 72,612 were ill with different diseases and 33,111 were with wounds.

The death rate for the previous week was 561 of which 258 were with disease and 303 from wounds received before the signing of the armistice. A complete and careful check of the report of the men wounded and of their conditions, with the nature of their wounds is now on the way to this country by carrier. The Department is also informed that the last of the casualty list has been transmitted to this country.

NAVAL BUILDING PROGRAM BEING HELD UP

Washington, Jan. 26—Sharp division among members of the House Naval Committee over the wisdom of passing no a second three year building programme until after the peace conference's decision on world disarmament, it was learned today, has led to the delay of a week before attempting final action.

Meanwhile, President Wilson may be appealed to by administration leaders in Congress to ask the democratic members to vote solidly for the programme. The leaders are understood to be considering sending a cablegram to the President.

Chairman Hudgett desires a favorable report, and while proponents of the programme say they are in the majority, they concede that such a report now could be brought from the committee only on a close vote and probably would be accompanied by one

from the minority opposing it. The meeting for final decision of the committee has been set for next Friday, and before then various attempts are expected to be made to get unity of action.

The programme calls for sixteen capital ships, including six battle cruisers. The committee is said to have learned that Admiral Sims and other naval authorities are disagreed regarding this type, and tentatively at least, it has been decided not to specify construction of the battle cruisers, regardless of the ultimate fate of the whole programme.

Chief Admiral Taylor, chief of the Naval Construction Bureau, has informed the committee that all the capital ships provided by the first three year programme cannot be completed in less than five years, and that the first of them cannot be completed for eighteen months.

BOSTON WOMAN NOW 112 YEARS ENJOYS LIFE

To have lived for over 112 years, still able to see without glasses, hear, walk, read, write and tell stories—in brief—covers the life of Aunt Fanny Banks, easily Boston's oldest woman and probably one of the oldest human beings in the world.

Aunt Fanny usually can be found seated in an old-fashioned cushioned rocking chair beside a south window in one of the rooms at the St. Monica's (Episcopal) Home, standing high upon a hill on Highland avenue, Roxbury.

The science of longevity means little to Aunt Fanny. Since she was a girl in the slave days in Green county, Virginia, until about nine years ago, when she came to the home, she smoked a pipe. Her favorite article of diet is fat meat.

Ash cake bread, baked in the embers of the fireplace, beef, boiled cabbage and coffee or tea twice, and often three times daily, are other preferences.

Born a slave, no official record is obtainable of her birth. It is deduced she was a widow of 30 when William Henry Harrison was inaugurated President in 1811. When her sister died three years ago at the age of 101, in the birthplace of Aunt Fanny, newspaper articles appeared in southern papers stating that the sister had another sister (meaning Aunt Fanny) several years the senior of the dead sister. Aunt Fanny's birthday has been altered as Nov. 22 as a result of her statement that she was born two days less than five weeks before Christmas.

Late to bed and early to rise is a precept of her own stating which she follows. She is still fond of a little stimulant and takes her coffee and tea strong.

She makes her rounds of the home daily, walking with a heavy cane, a little stooped only; always makes the old-fashioned southern courtesy to strangers, smiles without ceasing and possesses a fund of real story pictures of the days when she was a little girl first taken into the house of her mistress and elevated to the position of house servant. She calls her stoop "the Greek bend," as the fashion of walking with a slight bend forward was referred to by aristocratic white folk of the south in earlier days.

Aunt Fanny's thrilling episode occurred when the news came of the freeing of the slaves and a little later the colored servants refused to vote as the master wished and were all discharged.

Aunt Fanny's first husband bought a piece of land near Washington and then died, she was married again, and is a widow for the second time came to Boston.

Eight years ago she was discovered living by herself and doing her own work and was offered the shelter of St. Monica's. She gave up her pipe and tobacco on the first day of her arrival and has not asked for them since. Only twice has she been sick.

She is still able to dress and undress, walks with a spryness that is unusual for a person of her age, and is now busy knitting a pair of woolen socks for Captain Richmond Pearson Hobson, the hero of Santiago, a relative of whom visits the old lady at the home.

PICHON RECEIVES NEWSPAPER MEN

(By Associated Press)
Paris, Jan. 26—Stephen Pichon the French Foreign Minister, today received the Associated Press and the correspondents from America, England, Italy and et al, at his private office and talked freely about the great problems that were before the Peace conference. He said that there had not been a reply from the faction in Russia in regard to a meeting with an Allied committee on Prince Island. He was asked if the meeting would take place and said that while the Bolsheviks leaders had expressed some doubt, they had not refused and he could not tell.

SHATTUCK GUARD INJURED BY TRAIN

Fred C. Horner one of the night guards at the L. H. Shattuck Company, was injured on Saturday morning by being struck by the train which leaves the yard at seven o'clock.

He was taken to the yard dispensary where Dr. J. H. Neal attended him and then ordered him removed to the Portsmouth Hospital, where it was found he had fractured ribs, a bad scalp wound and it was feared internal injuries.

Sunday Mr. Horner was reported as showing some improvement, but still on the dangerous list, as it feared that there is some injury to his back.

The Soldiers Must Co-operate.

Finding work for returned soldiers is not as easy in all places as could be desired, and yet there is reason to believe there will be no serious and widespread trouble if the soldiers themselves will do the best they can under the circumstances and not insist on just such places as they would like if they could have their choice, and such pay as would be desirable, though perhaps not attainable just at present.

There are large numbers of unemployed service men in Boston, and a general movement has been started there to assist them in finding work. The Civic, Business and Welfare League is interesting itself in the matter and members of the Legislature have agreed to do what they can, both in Boston and their home towns, to help place discharged men in positions where they can at least earn their living until something more desirable turns up.

In this connection the soldiers were given some excellent advice the other day by Chauncey Wakron, secretary of the executive committee of the League, when he said: "Take the first job you can get to tide you over till something better offers." That is sound counsel and the men looking for work will do well to heed it. It is right in line with what was said by Lieut. H. D. Wilson, who is assisting in the job-hunting campaign. He said that the executive committee "wishes to impress on all applicants for employment that if they turn down opportunities on the ground that the jobs are not good enough for them less interest is likely to be shown in getting positions for them in the future, while if they are willing to accept any reasonable offer at first the committee will try to get them something better as soon as possible."

This is a sensible view of the situation. The sudden ending of the war has affected business unfavorably in many instances, and during the period of readjustment not only workers but business men will have to do the best they can under the conditions. Some employers who promised to take their men back when they returned from the service are finding it impracticable to do so to such an extent as could be desired, but reports would indicate that all are doing the best they can. If the soldiers will follow suit by taking the first reasonable jobs offered and keeping their eyes open for something better there is reason to believe that all will be well within a comparatively short time.

Since the United States entered the war there has been perfect co-operation between the men who went to the front and those that stayed at home. This must not cease now, and it will not. It is only necessary that all pull together and not be too exacting in their ambitions and demands until the decks are cleared for business on a peace basis, after which time there should be satisfactory business, work and wages for all.

The Legislature is on record as in favor of the abolishment of bridge tolls, and will in all probability act favorably on the proposition to erect a new bridge between this city and Kittery, to serve also as a memorial to the New Hampshire and Maine men who served in the war. The Maine Legislature stands ready to boost the project and the present outlook is encouraging.

Boston reports a fleet of coal carrying vessels lying in the harbor and, like the returned soldiers, "looking for work." The city is fully supplied with coal, in striking contrast to the conditions obtaining a year ago. And, fortunately, the same is true of most communities. While not all is as we should like to have it, there is a great deal to be thankful for.

In just nine days from the time she shot her husband dead Mrs. Lebaudy of Westbury, N. Y., was a free woman, the grand jury having failed to find a bill against her. She had only ventured to predict that she would be acquitted, as was one of her neighbors under similar circumstances a year or two ago. But the world is speeding up all the time.

Livestock in this country is said to have increased more than \$500,000,000 in value during the past year. But this doesn't necessarily mean that there is any more livestock.

Some of the farmers in Northern New York have been making maple syrup during the recent mild spell. It is seldom that such news as this comes from that section in January.

Although it will not affect the result, the country is awaiting with keen interest the action of the New York Legislature on the prohibitory amendment.

The Germans are proposing big annexations. They ought to understand by this time that it is one thing to propose and quite another to dispose.

WANTS TOLL RATE REGULATED ON MOTOR VEHICLES

Mr. Rogers of Wakefield wants the toll fixed for motor vehicles traveling over toll bridges and toll roads where such tolls are not otherwise prescribed by law. The following is the contents of a bill to that effect which he has introduced:

Section 1. Where a different rate is not otherwise prescribed or permitted by law, any person or corporation maintaining a plank road, turnpike road or bridge and authorized, or which shall hereafter be authorized to receive tolls for the passage of vehicles over the same, may charge and receive for each and every motor vehicle propelled by any power other than animal power, passing over the same, a toll not greater than the maximum rate allowed by law. To be charged and received for the passage of a vehicle drawn over such road or bridge by four animals, provided that for such motor vehicles as are designed to carry only two persons and no freight the rate of toll charged or received shall not exceed the maximum rate allowed for the passage of a vehicle drawn over such road or bridge, without a load, by two animals and provided further that nothing herein contained shall affect the jurisdiction of the public service commission over toll bridges.

Section 2. This act shall take effect upon its passage.

PEOPLE'S OPINIONS

Regarding Car Service.

Editor Herald: I am not a chronic "knocker" of "kicker," but I should like to know if the Public Utilities would maintain the action of conductors on the P. K. & Y. railroad in shutting their cars for Portsmouth when the South Berwick car is almost into the "Y," thus leaving the helpless passengers at that waiting station there to "cool their heels" for an hour or perhaps more. This was done twice inside three days. Also, at the Kittery ferry one evening lately the car has left for Dover before all the passengers could get to it leaving a number there to await their fate and livelihood against the mismanagement of the P. K. & Y. street railway system.

We all know certain discomforts are unavoidable, but such gross negligence on the part of public servants should not be tolerated any longer.

HELLO GIRLS

MAY STRIKE

Boston, Jan. 27.—The wage scale committee of Boston Telephone Operators' Union may be forced to serve a strike ultimatum on the New England Telephone Company in the near future on account of the growing dissatisfaction over delay on their wage requests, seemed to be the sense of a report made to a meeting of the joint council of telephone workers of New England at the Quincy House yesterday.

It was said that the scale committee's having its hands full in restraining the members because of the failure of the company and Postmaster-General, useless to announce a decision on the desired agreement of the local which was presented to the company last August, when the committee was informed that the raising of wages has in the hands of the postmaster-general since then the desired new schedule if the local has been placed before Mr. Burleson's committee, which reported in the same some months ago without any results being announced by Mr. Burleson.

The new schedule of the operators calls for a weekly wage of \$22 at the end of four years, in place of the present weekly maximum of \$16 at the end of seven years, the other grades of operators, supervisors, etc., to be increased accordingly.

Not only are the operators showing signs of uneasiness, but all other classes of employees have grievances; an mechanical department claiming that the management of the New England Telephone Company had broken a no-war promise by sending out an order that all men employed less than 10 months with the company shall be discharged as a measure of economy.

This order, it is claimed, includes those men who went to war and who have not as yet returned. A promise was made by the management, it is said, to hold jobs for men who enlisted.

FARMER'S ACCOUNT BOOK.

A great many things are advocated for farmers that are not always within the range of practical possibility.

We are all interested in making more money. Every farmer is ready to concern himself in anything that means better profit for himself and his family. Running a farm is enough of a gamble even after a man has done all the things he can do to prevent leaks.

One thing that New Hampshire farmers can do, and do at distinct profit, is to keep a definite account of their business enterprise. There is no single thing that will help to get a line on the whole farm business more than an account book kept for a year.

New Hampshire College puts out an account book especially designed for farmers in this state. It is being distributed by the Farm Bureau, co-operating with banks, granges, etc. It is a very neat book, all divided for keeping records of the various enterprises on a farm. This book is furnished free to any farmer desiring it. Many have been keeping them during the past year. Letters will be sent out from New Hampshire College every month to men keeping these books, bringing up points that occur during the year, and keeping everybody "in touch." Ask your Farm Bureau or write the College at Durham for one of these books, and interest your wife or son or daughter to help keep it this coming year. It will pay you to do this.

The wrestling match tomorrow evening is arousing much interest among the fans. In meeting Jess Wyden is facing one of the toughest bouts in his career. The farmer is outweighed and in Jess he is meeting a wrestler that is known all over the country as a dangerous man.

THE POOR BOY'S CHANCE

Random Observations and Reflections of a Man on the Side Line.

(Syndicate)

Years ago I heard, a hard-headed, practical man of affairs say that the best thing that ever happened to a boy was to be thrown overboard and compelled to swim or sink. What he meant was not that a boy should be taken out in a boat and thrown overboard, but that in a majority of cases those who are thrown upon their own resources early in life stand a better chance of success than do those who are given every advantage for preparation, with the privileges and luxuries which usually go with such advantages.

I have never made a study of the question, which would be a difficult one to decide because in matters of this nature a great deal depends upon the individual. But the casual observations of many years convince me that there is at least a basis of truth in the contention that the necessity for working his way is not the worst thing that ever happened to a boy with the right sort of stuff in his make-up.

I was reading the other day of the death of a prominent New England physician who in the course of his career filled many positions of responsibility as an educator and in connection with public health matters. In the account of his life it was stated that he began as a newsboy and later worked in the mills of the city in which he was born. After graduating from the high school he worked his way through college and medical school and rose to a gratifying degree of prominence in his profession.

Of course, this is only one case out of thousands. We read of them frequently, and not a few instances of the kind have come under our personal observation. I know a number of young professional men in the community in which I live who started from the humblest beginnings and have "made good," as we say. Two of these men are lawyers and one is a physician. All were the sons of poor parents. The doctor and one of the lawyers were apprenticed to learn the barber's trade, and the doctor learned to work at it for some years before taking up the study of medicine.

The other decided that the practice of law would be preferable to barbering, threw aside the razor and the shears and worked his way to the bar. For years he has had a good practice, has served in the state legislature and is associate justice of the local court. The doctor has an excellent reputation and practice, which he has just resumed after a service of many months in the medical corps of the United States army. The third member of the trio I have in mind just now started life as clerk in a village grocery, but was ambitious for something higher and worked his way to the practice of law. That he has achieved a good standing in his community and the region roundabout may be judged from the fact that, while a member of the minority political party, he has been honored with four terms in the state senate, a record that breaks all precedents of recent years in his district.

I might cite almost indefinitely instances of this character, but these will suffice for the present. There is hardly a community in which there are not parallel cases, and some even more striking.

And then comes the question of the value to a boy of all the advantages to be had. That educational advantages are very valuable when properly improved goes without saying, but I have known so many cases of failure among the sons of well-to-do men, who were given every opportunity to make something of themselves, that I am sometimes inclined to think they might have done better if they had had less boosting. I have seen sons of prosperous manufacturers, professional and business men grow up and go through college, only to amount to nothing—and in some cases worse than nothing—in practical life.

The comforting thought in connection with this question is that poverty

is no bar to the boy having in him the right material. It is equally true that affluence and privilege have their dangers as well as their advantages. To be born a poor boy does not mean that one must remain at the foot of the ladder. It is a merit that tells in the long run, for in this country true merit never fails of recognition and reward.

COIN DEPARTMENT

Correspondents should remember that values given for old coins are what the Dealers ask for them. What they would pay would depend on the scarcity and condition and how much of a demand he had for any particular coin. The age has very little to do with value, coins over two thousand years old can be bought for fifty cents or less for some of them, while two of our own \$50. Gold pieces of 1855 (I think this was the date) sold for \$10,000 each, the highest price ever paid for a United States coin.

Our statement about the value of the \$50 gold piece should have been for the year 1877. There were two of them struck off, one with 13 stars and the other with no stars. They were sold in 1909 for \$10,000 each.

SOLDIERS RECEIVE GOODS FROM Y. M. C. A.

Boston, Mass., Jan. 26.—The three exhibitors, smokers, sports supplies and sweets, made famous by the Y. M. C. A. War Work Council in its program of service for the doughboy, again predominated in the record of shipments of our comforts to the soldiers overseas during December, according to a statement issued today by William Starnes, chairman of the "Y" War Work Council. One item of \$1,473,000 cigarettes, another of 102,378 matches and a third of 1,511,792 tins of jam helped to swell the total value of the month's shipments to \$2,778,208.92.

The interesting feature of the December total, as seen by Mr. Starnes in his statement, is that more than thirty-six per cent of the supplies are for the free use of the soldiers.

Lady Nicotine, as usual, continues to be most popular with the soldiers. Contributing to shipments valued at \$195,365.51 in December alone were 51,173 cigarettes, 770,090 cigars and 231,467 pounds of tobacco.

Consigned to the entertainment section of the Y. M. C. A. are 740,000 feet of film, the equivalent of about 250 new feature productions, comedies and shorter subjects. Organs by the hundred, musical instruments, and music by the case and all the talking machine needles that \$6,250 will buy were sent across. To keep the boys trim there were 2,250,000 cakes of soap, shoe polish, shaving kits, tooth paste, towels and trench mirrors. And for some reason or other the "Y" sent overseas two fire extinguishers.

COUNCIL TO TAKE UP FATE OF COLONIES

(By Associated Press)

Paris, Jan. 27.—The Supreme Council of the peace conference met at 10.30 o'clock this morning with a full attendance of members. A number of technical advisers on colonial matters, including three Americans, accompanied the various delegations as they entered the Foreign Office. One of the questions which it was expected the Council would take up today was the ultimate fate of the German colonies. France and Great Britain, it is declared, are agreed upon at least one feature of the solution of the problem which is that under no consideration shall the colonies revert to Germany. The reasons advanced for such a decision are various but prominent among them is that it would render it impossible for Germany to establish submarine bases in her colonial possessions. The American attitude is as yet unrevealed.

ESPIONAGE CASE NOW BEFORE COURT

(By Associated Press)

Washington, Jan. 27.—All arguments were begun in the Supreme Court today on the constitutionality of the Espionage Law in the cases of Eugene V. Debs, Socialist leader, convicted of violating the law in a speech at Canton, Ohio, last June, and Jacob Prosser, work of Kansas City, found guilty of writing seditious articles for a newspaper. Counsel for the defendants attacked the act as an attempt to abridge the constitutional right of free speech and a free press. John Lord O'Brian, Special Assistant to the Attorney General, contended that the law obviously was intended to protect the military program against all types of interference and that since Congress had the power to deprive men even of their lives for the purpose of raising an army, it surely could require citizens to refrain from deliberate obstruction of the process of obtaining necessary fighting men.

**Mass Meeting at Colonial Theatre on
Sunday Afternoon—Gov. Bartlett One
of the Speakers**

A mass meeting under the auspices of the New Hampshire Jewish War Relief committee, was held on Sunday afternoon at the Colonial theatre and there was a large number present.

The Jewish War Relief committee began a country wide drive today for the relief of the Jewish people in those sections of the war infested countries of Europe and Asia. The condition of the Jewish population of Russia, Poland and some parts of Austria, are especially bad, and unless some relief is given them famine will claim many thousands of them before the winter is over.

Mayor Albert Hislop presided and the principal speaker was Governor John H. Bartlett who made a stirring plea for the Jewish people. He went into the condition of the countries in which they were located and of their persecution before the war which had in some respect been renewed since the signing of the armistice.

Judge Jacob Asher of Worcester was another speaker and he outlined the plan of the committee for the distribution of the relief fund, which was being raised all over this country, and pictured in a very vivid manner the great need of supporting the relief committee.

There was an excellent musical program. The Unitarian church quartette rendered several selections and Mr. and Mrs. Peter Kurtz rendered violin and vocal selections.

The local committee are asked to raise a stated quota for this city and they will begin their work today and before the two weeks are up will make a canvass of the entire city. The Jewish people have contributed generously to all of the war drives and they should get generous treatment everywhere. It is a good cause and will save lives.

At a meeting of the Jewish people on Sunday evening Rabbi Levine of

I WONDER

If the number of the box No. 19 of the fire alarm will be changed when the changes are made?

Why the B. & M. runs an empty passenger train back from York Beach every day and makes no stops along the line?

How the B. & M. men like the straight 8 hours and the cut in weekly pay on account of no more overtime?

If that Marine railway and big dry dock for the Atlantic shipyard will come along?

If the spasmodic improvements made at the Custom House will ever include an elevator?

Why the non-partisan committee did not get the opportunity to debate the charter bills for Portsmouth which came into the legislature at the 11th hour?

What the law makers in the legislature are going to do with the Jockey bill?

Just why the property on Congress street known as the Haven estate is not put to some use?

What has become of that South End debating club which retired after the last banquet from the field of arguments?

If Harmon's argument on "A Man is a Man, etc." put the kibosh on the debates?

**WHY RUN THE TRAIN
EMPTY TO THIS CITY?**

It does seem possible that the Boston and Maine railroad could make an improvement in the train service on the York Harbor & Beach and bring a revenue from one train which at present is run at a loss between York Beach and Portsmouth one way. The main question is that which carries over yard workmen to York Beach at 150 from Kittery.

This train comes back to Portsmouth running from York Beach without a stop and without a passenger. The last train from York Beach to Portsmouth leaves the beach at 12.10 p. m. and with the electric road tied up the people along the beach are out of luck for transportation as far as railroads are concerned.

Why not have this empty navy yard

train make all the stops coming back and pick up passengers for Portsmouth, Boston and other points west? It is understood that the directors of the York Harbor & Beach railroad have been appealed to and that the B. & M. which operates this line will take the matter under consideration. Its hard to understand why the B. & M. is moving an empty train 11 miles when there is a chance to do a passenger business and make better use of the train.

OBSEQUIES

Annjanette W. G. Lear.

The body of Mrs. Annjanette W. G. Lear, who died in Beverly on Friday, Jan. 24, was brought here today. Interment was in Harmony Grove cemetery under the direction of A. J. Trotter.

Overt E. Drinkwater.

The funeral of the late Overt E. Drinkwater was held from the Methodist church, Kittery, Sunday afternoon, Rev. John Jenner officiating. The Rebekah Lodge attended and gave their ritual service in due form. The pall bearers were Charles A. Manson, Herman E. Manson, George B. Manson, Edward Parker. Interment was in the Kittery cemetery under direction of A. J. Trotter.

SPORT NOTES

Two identical men, Barney Gerard and Joe Di Peso, have asked the best way to get hold of Hank Gowdy, premier pitcher of baseball. It is the hope of each to bind Hank Americans to a big theatrical contract. Joe says he is willing to give Hank \$1200 a week for 30 weeks and sign a contract for those figures, so sure is Joe that Hank will be a whirlwind as a stage favorite. This totals to \$36,000 and would be enough to tempt almost any one to leave the spotlight's gleam.

Tex Rickard may run up against many obstacles in staging a championship ship bout for Jess Willard. It was last year that the ban was placed on the proposed Willard-Pulton match by governors of various states because of charitable reasons. Now Gov. W. P. Hobby of Texas announces that big Jess cannot fight on the soil of the Lone Star state. If there is a repetition of the broad ban of last year it is probable that Rickard will have to take Willard over to France to mingle with Georges Carpentier.

PRESENTS MOONEY'S CASE IN THE FORUM

Speaker Gives Warning of General Strike Unless Mooney is Released From Prison

The open forum being conducted under the auspices of the Anti-Trust Council, was largely attended Sunday afternoon and the speaker, J. Edward Morgan of San Francisco, was an eloquent and forceful orator, and held and swayed his audience almost at will. The theme of his discourse was "The Tom Mooney Case," and he told the story of that tragedy and the subsequent persecution of Mooney and other defendants in this famous case. He depicted the unspeakable and outrageous of the ring rule in San Francisco and outlined the incredible lengths to which this unscrupulous organization went in order to suppress the leaders of organized labor.

He presented Mooney's able, exposed Oxbury's perfidy and extolled

the ability and loyalty of Mrs. Mooney and the idealism of those who were identified with the Mooney defense league had been taken to secure for Mooney a new trial. Now Judge Griffin, the trial justice had petitioned the Governor of California for a new trial and had given valid reasons for so doing. Appeal after appeal had been made and denied, and even a Federal Commission had investigated the case without avail, and now Tom Mooney still languishes in prison under a life sentence and there remains the final appeal unto the Supreme Tribunal of public opinion.

This appeal is being made to organized labor of which Tom Mooney is a self-sustaining member, and a protest is designed to take the form of a re-

sent strike of all organized workers, said strike to begin July 1st, 1919, to remain in full force and effect until the prison gates swing wide and Tom Mooney takes his place among the free men of the world.

Mr. Morgan said that the purpose of the defense league was to demand simple justice, and not to handle the spectacle which would bring about the inevitable and his eagerness to serve his fellowmen was beyond question. He sought the assistance of all—the preacher, the professor, the lawyer, the doctor, the press—in the achievement of true democracy for all—the high born and the low, and deplored the establishment of a plutocratic autocracy just as reprehensible as German Militarism, and pleaded with his auditors to help to secure for every one full and exact justice. He touched on the unrest in the old world and warned the ruling class of the danger of denying mankind their inherent right to live as men, and to enjoy all of the rights and blessings of citizens of a decent world.

INTERESTING LECTURE AT NORTH CHURCH

Rev. J. D. Taylor held the attention of a large congregation at the North church on Sunday evening, with a most interesting talk on "The Black man in white man's Africa."

Dr. Taylor has traveled extensively thru Africa and has made a careful study of the situation there. He is a brilliant speaker and accompanied his talk with some excellent illustrations, taken by himself.

ONLY WHITE WOMAN IN TOWN.

The only foreigner residing in the city of York, China, for the last five years is Miss Mabel Hartford, formerly of Dover, N. H. For six years this brave woman has lived alone in a district where the brigands have been ravaging the country, burning, killing and holding for ransom the defenseless townspeople.

Miss Hartford has gained the confidence of civil and military officials, as well as of the church. She is general manager and adviser of that whole section and again and again has been the means of making peace between soldiers and civilians.

A school for girls and a training school for women are being established by Miss Hartford in the city of York, she also supervises a chain of day schools in the vicinity and acts for the foreign district superintendent as advisor to the native preachers. During the past year, in spite of war conditions, the whole work under her care has been self-supporting.

Miss Hartford was a very successful teacher in the public schools of Dover until 1881 when she went to the Chicago Training School to prepare for her work in China.

PRISONERS HAVE BIG HOUSE FOR SECOND NIGHT

The second performance of the Naval prisoners play at the Portsmouth Theatre on Saturday evening was if anything better than the first. The members of the cast who faced the large audience of the first night with remarkable composure, were even more at ease and it had a little more snap.

There was a full house all the seats being sold and the prisoners established a record in this respect of two packed houses for the same show.

The proceeds of the two performances will go to the Naval Section of the Red Cross of which Mrs. Daniel wife of the Secretary of the Navy is the president.

PUZZLE FAN'S DEPARTMENT

The puzzle fans puzzled to good advantage on the long list of problems for Sunday. Each selected the problem to their taste and many different answers for the same puzzle were sought. Following are the solutions received today:

Puzzle Editor:
Take \$100 and buy 100 head of the following stock: Cows, sheep and hens. You are to pay \$10 each for the cows, \$4 each for the sheep and 50c each for the hens. Bring in 100 heads with \$100. How many of each must you get?

Answer: You must get 5 cows, 91 hens and one sheep.
Give us something hard.

P. C. G., 13-Yr. old boy.

Puzzle Editor:
Once upon a time there was a blind beggar and this beggar had a relative and they both had the same father. So fell out that the beggar's relative died. Now what relation was the beggar to the dead person?
Answer: The beggar was the relative's sister.

Puzzle Editor:
If a bottle and a cork cost \$1.10 and the bottle cost \$1.00 more than the cork, what does the cork cost?
Answer: The cork cost 5c.

P. C. G.

Puzzle Editor:
Answers to puzzles in Herald of Jan. 25.

1. He walks one mile, rides two miles, and is actually one mile from his starting point.
2. The cork costs five cents.
3. A makes 62.5 rods and B 37.5 rods.
4. Six hens lay 28 eggs in seven days.
5. They are the same distance from Boston.

6. Either brother or sister to the relative. (I think this problem is stated incorrectly.)
7. He takes the goose across. Then he takes the fox across and takes the goose back with him to the first side. Then he takes the corn across leaving the goose alone. Lastly he goes back after the goose. Then all three are across and in no case has the goose been left with the corn or the fox with the goose.

8. He neither gains nor loses.
9. The price of the eggs is 15c per dozen.
10. He buys 5 cows for \$50, one sheep for \$3, and 91 hens for \$45, making a total of 100 animals and \$100.
11. Five.
12. Three cats.

MRS. G. K. R., 10, Witley.

Puzzle Editor:
My answer to the stock puzzle contributed by N. E. B. is easily found.

Take \$100, and buy 100 head of the following stock: Cows at \$10, per head sheep at \$3, per head; hens at 50c per head.

Buy 5 cows, 1 sheep and 91 hens and you have it.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and To Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the so-called lines of health and beauty, there

Georgia Hamilton, the wonderful "Movie" girl, who was once thin and frail, says: "BITRO-PHOSPHATE brought about the magic transformation. I gained 25 pounds and never before felt so well."

are evidently thousands of men and women who feel they are suffering from thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by Dr. W. Adams' Drug Store and all druggists under a guarantee of

Frederick Kelle, M.D., Editor of New York Practitioner "What's the best?" says: "BITRO-PHOSPHATE should be prescribed for every doctor and used in every hospital to increase strength and build up a fine physique and to enrich the blood."

substitution of money made by feeding the nerves directly and by supplying the only cells with the necessary phosphate and elements, bitro-phosphate quickly produces a welcome transformation in the appearance, the increase in weight, promptly being accomplished.

This increase in weight also carries with it a general improvement in the health, nervousness, sleeplessness and lack of energy, which nerve tissue

Miss Josephine Dietz, reading her experience with BITRO-PHOSPHATE, says: "It is remarkable what it did for me. After a few days I was able to regain my strength, felt full of life, and able to sleep soundly and all my little troubles seemed to disappear. I gained twelve pounds in four weeks."

accompany excessive thinness, soon disappear, but eyes become bright, and pale cheeks glow with the bloom of perfect health.

Joseph D. Harrigan, former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, run-down take a natural, unadulterated strength and tissue-building substance such as bitro-phosphate and you will soon see some astonishing results in the increase of body energy, strength of body and mind and power of endurance."

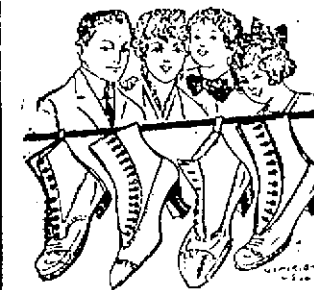

CAUTION: Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness, an general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

SERATHOL FOR INDIGESTION

A PHYSICIAN'S ADVICE

Recent investigations of the treatment of a large number of cases of indigestion, dyspepsia, gastritis and conditions arising from irregularity of the stomach prove that there is nothing more effective in the treatment of these ailments than ordinary Serathol, which can be obtained from Dr. W. Adams' Drug Store in Portsmouth or any local druggist at trifling cost. Many a sufferer from these complaints has been greatly surprised at the almost instantaneous relief and subsequent permanent benefit from its use. In many cases of hyper-acidity a single dose of Serathol produces almost magic effects.

CONSTIPATION: Purified Toilet is becoming more and more popular as a remedy for constipation. It is two pills in chocolate coated pellets, is inexpensive and can be obtained from all good druggists without a physician's prescription.

ADM. WOOD HAS NOT RECEIVED ORDERS AS YET

Rear Admiral Spencer S. Wood, commanding the naval district, said yesterday he has received no orders for the discharge of yeomen from the service, notwithstanding that a dispatch from Portsmouth yesterday said orders had arrived there to release all such yeomen and the enlisted personnel of the naval reserve by July 1.

Admiral Wood has more than 3000 yeomen for release from service on his desk and they are still coming in. He says nearly all the applicants deserve discharge, but he can do nothing till the authorities at Washington give the word.

HALL BREAKS DOWN IN CELL

Saco, Jan. 27.—With his trial for the alleged murder of his wife at Wells Depot last June a matter of a few hours away, the Rev. Henry H. Hall broke down and cried half the night. His father, Deputy Sheriff Macomber of Shapleigh, said Sunday afternoon that though Hall had borne up well since his transfer from the jail at Alfred, he had suffered under the terrible strain of his trial, which opens Tuesday morning, and his sobs re-echoed throughout the jail.

The preacher spent a quiet Sunday in his cell. After a half-hour walk around the corridor he spent the remainder of the day reading old stories. He did not read his Bible, although he has spent much of his time in jail in that pastime.

Atty.-Gen. Guy L. Sturgis of Portland reached Saco early Sunday afternoon and immediately joined County Solicitor Franklin R. Chesley and former County Solicitor Hiram Wilford of Sanford for a long conference at Solicitor Chesley's office. Judge Emery did not appear at his office, but announced that he will hold a conference today with Frederick W. Hineley of South Portland, who will be associated with him in the defense.

The hotels of Saco and Biddeford are crowded with witnesses, who are here from all over the state. Many of them are quartered at the Thatcher Hotel at Biddeford, where Associate Justice Scott Wilson of the supreme court and other court officers are registered. But a majority of them are under the guard of deputy sheriffs at Thornton Inn, which is near the court house at Saco.

Mrs. Frances Stevens of Harrington, mother of the dead woman, accompanied by the minister's 14-year-old daughter, Frances, who have been summoned as state witnesses, reached Saco Saturday and are at Thornton Inn. Hall's mother, sister and brother are expected today and other relatives from Harrington have made reservations for the two weeks of the trial.

Dr. George Burgess Magrath of Boston, medical examiner for the Northern Suffolk District, will be the state's chief medical witness. The findings of Medical Examiners Frasier and McDonald having been submitted to him for analysis. He was in New York Sunday when the county authorities sought to confer with him, but will come to Saco today for a meeting with the attorney general.

The authorities would issue no statement Sunday as to the probable line of evidence they will offer but it was said that 100 witnesses are under subpoena, 40 of whom are direct witnesses for the state and the other 60 summoned at the request of the defense.

The case is already famous as the most spectacular in the history of York county. Every detail has been attended with dramatic incidents, including the death of Mrs. Minnie O. Stevens Hall on June 11.

Following the thrilling struggle for life on the little culvert over the creek between the two railroad crossings as described by the state, was the dramatic climax to a detectives' search for evidence, the arrest of the evangelist minister of the Union Baptist church on a charge of wife-murder. He was given a preliminary hearing in the Opera House at Kennebunk where a thousand persons watched the spectacle as if it was an exhibition of theatricals.

The trial is to be held at the City Hall, where the stage settings are as highly colored and nearly as large an audience will be admitted. Associate Justice Scott Wilson of the Maine supreme court will preside.

THUMBNAILED SERMON

"Silver and gold have I none, but such as I have give I unto thee"—St. Peter.

It seems that the modern church has no message which the people, common or otherwise hear with gladness. I begin to understand why the Board of Managers of the Children's Home adopted coercive methods to insure attendance at church. The music is entertaining but the service is neither beneficial nor instructive. There is no faith in its creed, no hope

in its doctrines, no charity in its membership. There were seven men, one boy and forty-three women present when the organ pealed the opening chords. "This is a rare thing, why I believe in giving political rights to that better half of humanity which has kept alive the purity of purpose to the teachings of that greatest of all reformers Jesus, the Son of Mary."

The fair-haired head drew nearer, the twinkling eye grew brighter, the low chuckle of amusement became a single of delight as the "Small Boy's" hand sought that wondrous pocket, the inexhaustibility of which rivals the widow's curse of oil, and the "invisible supply" at confessions was rapidly reduced as we listened to that Christ-like man of God, the Rev. Gooding, deliver the keys of the kingdom of heaven into his people.

"Suffer little children to come unto me, and forbid them not, for of such is the kingdom of heaven."—The man of Galilee.

The effluent glory of his sympathetic manhood dispels the sombre grandeur of his godhood, as our Elder Brother thus proclaims the sweet sanctity of childhood. "Suffer little children to become subject unto institutional efficiency," for of such are the insensate automatons.—Revised Version.

When the "Small Boy" comes sobbing into the arms of his father and whispers of a lack of love and sympathy, it is a sufficient condemnation of "institutional efficiency."

"I don't go much on religion—I ain't never had no show—but I've got a middlin' light grip, zis on the handful of things I know. I don't pan out on the prophets. An' free will and that sort of thing, but I believe in God last spring. How did he get there? Why angels! He could never had walked in that storm."

They just scooped down and tated him to where it was safe and warm and I think that flinches a little child and fetchin' him to his own is a blam'd sight better business than loafin' around the throne."—John Hay.

GLASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

CHINAMAN DIGS HIS OWN GRAVE

Lebanon, Jan. 25.—S. C. Yee, who with his father has run a Chinese laundry here for two years past committed suicide at 5 o'clock Friday night by shooting himself through the temple with a revolver.

Yee was 30 years of age and was well thought of here. He had recently received news of the death of relatives in his native country and for a few days past had been rather melancholy. Thursday afternoon he dug a hole in the ground back of his laundry, saying he was getting ready to die. Friday morning he picked up all his belongings in a box and directed them to friends in China and later in the day in company with Bonnie Briggs who attended the same Sunday school drove to White River Junction where he purchased the revolver.

A woman living in the block heard the shots and notified Frank Bass who entered the laundry and found the man dead on the bed, one hand grasping the revolver. The Chinaman's father, was standing just outside the door in the next room ironing, apparently as unconcerned as though nothing had happened and while he did not talk much English when asked what was going on and he didn't know. The body was removed to the morgue.

WILL NOT BE CAUGHT NAPPING AGAIN

Washington, Jan. 25.—Major General C. C. Williams, chief of ordnance, described to the House Military Committee yesterday some of the steps taken by his department to prevent the country from reverting to such a state of unpreparedness as before the war. Sufficient arms and ammunition will be kept for an Army large enough to guard the country against any possible invasion.

General Williams said: "The Ordnance Department now has 3,700,000 rifles, 2,000,000 rounds of ammunition to supply forty-eight divisions for six months. Large quantities of other equipment are being held. The department plans to keep this material, and in addition machinery for making it, which has been manufactured during the war. It would be impracticable to retain all the machinery, so a portion of it will be sold. Most of it will be dismantled and placed in warehouses where it will be accessible immediately. All dies and gauges will be kept. An appropriation of \$1,000,000 is needed for bringing back from France thousands of tons of ammunition of all kinds now in storage there, most of which is in good condition and well worth saving. The arsenals which the Government had before the war will be kept in operation, and in addition several of the new war plants will be taken over and kept in such condition that they can be put in operation. An appropriation of \$500,000 for experiments with tanks is needed. Experiments with body armor have not been very successful. With the exception of the helmet all armor was found to be practically useless. The department has abandoned the idea of throwing into the ocean or otherwise destroying great surplus supplies of T. N. T. and other high explosives. There is on hand 80,000,000 pounds of T. N. T. and 100,000,000 pounds of powder, in addition to immense quantities of other high explosives. The powder will be sold or kept for use of the War Department. Part of the T. N. T. will be sold to the Agricultural Department, part will be sold to the trade, and the remainder will be kept in storage in well guarded warehouses, with unusual protection against fire."

When the "Small Boy" comes sobbing into the arms of his father and whispers of a lack of love and sympathy, it is a sufficient condemnation of "institutional efficiency."

ELKS BIG BALL
THIS EVENING

This evening is the big event for the Elks when they will hold their annual ball. The arrangements are all perfect and they have Freeman's hall well decorated and also have taken possession of the annex as a side attraction.

The special entertainment will be Governor Bartlett and Mayor Hildrop. The music will be the best ever. There will be a profit sharing scheme in the way of liberty bonds and the usual and always interesting economy of the eleven o'clock treat to the absent brothers.

HAMPTON WILL

RUGS.

A simple heading like that doesn't signify much, does it? But if you were here and could see some of the beautiful rugs we are selling, you'd be interested enough to make a purchase, that's all.

Somewhere in your house is a place that only requires a rug to give it that delightful touch of coziness, an appearance of completeness, as it were.

Just a few of many kinds we are showing are, Tapestries, Axminster, Velvet, Wiltons, American, Oriental, Brussels and numerous and many other kinds. The famous Whittell rugs are shown in many designs.

Just a few days ago we had a customer come in and make a large purchase, she was from one of our neighboring cities, and told us that she had been advised to come to Portsmouth and to our store in preference to going to Boston. Does this mean anything to you?

MARINES SAVE
BOY'S LIFE AT
SOUTH MILL PONDLad Goes Into the Channel
While Playing on the Ice.

The timely action of Privates Stewart and Horriberg of the U. S. Marine Guard at Portsmouth navy yard, saved Paul Dow, six year old son of Mr. and Mrs. John Dow of Blossom street from a watery grave on Sunday at the South Mill Pond. The lad in attempting to get on the pond near the channel at the Junkies avenue bridge, went through the thin ice into the cold water of the pond. The boy was alone at the time and his cries attracted the attention of several skaters. The first to start for the rescue was a navy officer who slipped with his skates and fell. While he was getting on his feet the two marines passed him on their skates. Horriberg, while on his stomach reaching for the boy, broke through. Stewart then crawled on the ice in the same manner to assist his comrade and the boy was the third to go into the pond. Between them both they got the boy ashore where they worked on the lad and got him home as soon as possible.

Several hundred skaters witnessed the brave act on the part of the guards.

SMALL REDUCTION
IN FORCE AT
SHATTUCK YARD

Because of the delay in certain branches of work at the U. S. Shattuck shipyard and the changes in specifications it has been found necessary to lay off some men. The lay-off will in most cases be temporary. The reduction will be in the forces of Woodworkers, Marine Plumbers and Riggers.

They have just completed two hulls at the dock ready for the installation yards, one of these is to leave the yard on Tuesday.

A still further reduction in the carpenter forces is temporarily necessary because the woodworking crews have gotten far ahead of the Painter's craft and the Caulker craft.

These latter crews have been engaged on repair work at the navy yard which has unbalanced the accomplishment on regular work.

The total men that will be laid off during the next two weeks will be about 200.

THE HERALD HEARS

That a sheep stealing case is being heard in the superior court at Exeter today.

That the Navy Department says we have all the ships we can handle at the navy yard, but why send them to Boston when it is admitted that there is not room enough there and not men enough to do the work.

That the shipyard men have gone into a bit of sports and made good. Now there is talk of race boat crews for next summer.

That a Kittery man near Gray Lodge has grabbed the honor from the former electric street railway man in the report of the first robin.

That the Kittery man says it is the real bird, although he has no moving picture of the famous bird.

That George M. Randall of Dover Democrat, wants the sum of \$13, from the state to cover the expenses incurred in maintaining his right to a seat in the House of Representatives at Concord.

That a bill at Concord would give each jailer the sum of 50 cents for receiving a prisoner into custody and the same amount for discharging him.

That two of the first ships launched at the Shattuck shipyard are now in Boston harbor.

SAYS WE HAVE
ALL REPAIR WORK
WE CAN HANDLE

Why no additional ships for repair here? That question has puzzled many interested in the navy yard. The answer from the Navy Department is that all the ships that can be handled here are sent. This answer would hardly be considered as satisfactory without presenting the department's further explanation. The submarine construction work here is said to be of first importance and all the men that the yard has to put on ship repair work are employed. Here is Secretary Daniels' letter on this subject:

The Secretary of the Navy,
Washington, D. C.,
January 25, 1919.

My dear Mr. Hartford:—
We are sending all the ships to Portsmouth that can be repaired there and there is no danger of there being a lack of work at Portsmouth.

Sincerely Yours,
JOSEPHUS DANIELS
